„ONLINE-ORTE 2.0 –
LOCAL MEETS GLOBAL“

/→ ORTE – The Career Fair of TU Bergakademie Freiberg //////////////////////////////////////

Founded in 1765, TU Bergakademie Freiberg is the oldest university of mining sciences in the world and the leading resource university in Germany. The focus of research and teaching is on securing raw materials along the entire value chain, from the development of deposits to the environmentally friendly extraction of raw materials, the development of alternative energy technologies and efficient materials, and recycling.

With engineering, natural sciences, geosciences, materials science and economics, the university combines the necessary subjects and disciplines and covers all areas from basic research to application-oriented research.

Today, more than 4,000 students in almost 70 degree programs study in Freiberg in a scientifically sound and practice-oriented manner. As graduates, they are sought-after specialists in industry and business, science and research, and public administration.

Close cooperation with industry in Saxony and internationally leads to a strong practical orientation of the university, which is among the top ten German universities in third-party funding income per professorship. TU Bergakademie Freiberg is networked worldwide and offers about a dozen English-language master's degree programs.

In addition to outstanding research and teaching, the university is also committed to providing individual support for students. As a central service facility under the umbrella of the Graduate and Research Academy, the Career Center prepares students for their professional future.

For more than 10 years, it has organised the CAREER FAIR ORTE once or twice a year, where regional, national and international companies and institutions present themselves. In an informal atmosphere, they inform students and alumni about job opportunities, internships and thesis work. In addition, visitors benefit from an extensive supporting program with company and specialist presentations, application portfolio checks and much more.

At each ORTE, the focus is on a current topic from the area of "jobs and careers" and complements the existing range of offerings. In the winter semester 2020/21, the career fair was held online for the first time.

Return by March 31, 2021

- The attached General Terms and Conditions (GTC) are an integral part of the contract -

The CAREER FAIR ORTE will again take place in digital form in the summer semester of 2021. For this purpose, there will be two active career fair days on which exhibiting companies and visitors can enter into direct communication with each other. In addition, visitors will have the opportunity to view the virtual booths for 7 days and find out more about the companies.

The focus of the career fair this time is on "ONLINE-ORTE 2.0 - LOCAL MEETS GLOBAL".

Note: The career fair brochure produced in previous years will be replaced by a digital exhibitor portrait that can be retrieved before the career fair and will remain online in the archive afterwards. This contains the exhibitor's name, address, website link, as well as your company's offerings and the specialties you are looking for.

Note: Registration and participation as an exhibiting company at the career fair ORTE is voluntary. The registration establishes precontractual measures of TU Bergakademie Freiberg, for the implementation of which the processing of the following data is necessary and covered by Art. 6 para. 1 letter b DSGVO. With participation in the CAREER FAIR LOCATIONS, a contractual relationship with the TU Bergakademie Freiberg is established. The processing of data in the context of this contractual relationship is also legitimised by Art. 6 para. 1 letter b DSGVO.

/-> General information about dubious exhibitor directories //

We would like to inform you about a dubious practice in the area of career fair organisation, which we have learned about through third parties. Sometimes exhibiting companies at career fairs receive offers from companies based abroad, which offer entries in exhibitor directories with reference to "data control" and "expiry of validity". These may be associated with costs. Order forms are sent out, which may also contain names and dates of trade fairs at which the company is usually represented. The fine print of the order then contains contractual terms and conditions that trigger a contract with costs for several years.

If you receive an offer whose origin you are unsure of, please feel free to contact us at any time.

/→ Registration information //

Please send the completed registration form by mail, fax or post to the Career Center of TU Bergakademie Freiberg at the following address by March 31, 2021 at the latest:

TU Bergakademie Freiberg
Career Center
Prüferstraße 2
D-09599 Freiberg

As contact person for the registration process for the career fair you can reach Constanze Schulze under:

Telephone: **+49 (0) 3731 39 - 3302** or
Fax: **+49 (0) 3731 39 - 3353** or
E-Mail: **Constanze.Schulze@cc.tu-freiberg.de**

Due to the increased demand, we recommend a prompt return. Prereserved places can only be kept free within the re-registration period until **March 31**.

At <http://tu-freiberg.de/orte> you will find all important information about the career fair and on the career fair days the LOCATIONS themselves.

/→ Invoicing information //

Please note that invoicing is done by default only electronically as a PDF to the e-mail address provided by you. If you need a physical invoice for internal company reasons, please let us know here in advance:

- We agree to the transmission of the invoice electronically as a PDF.
- We do not agree to the transmission of the invoice electronically as a PDF.

In order to prevent misuse, we ask you to ensure that invoices issued by the Career Center of TU Bergakademie Freiberg always contain the following data:

TU BERGAKADEMIE FREIBERG
UST-IDNR.: DE 141136178
STNR.: 220 144 00153
ACCOUNT HOLDER: HAUPTKASSE SACHSEN
IBAN: DE 06 8600 0000 0086 0015 19
BIC: MARK DEF1 860
DEUTSCHE BUNDESBANK

/→ Signature for binding registration //////////////////////////////////////

Please note that sending the registration form to TU Bergakademie Freiberg constitutes a binding offer. However, a contract is only concluded upon **textual acceptance of your contract confirmation** by TU Bergakademie Freiberg. A preliminary confirmation of participation does not lead to the conclusion of a contract. According to the server and time capacities, the organiser decides on the participation of the company in the career fair.

With the registration the [General Terms and Conditions](#) of the contract are bindingly accepted by the applicant.

The processing of your data and information is carried out by the Career Center of TU Bergakademie Freiberg. The basis for this processing is Art. 6 para. 1 letter b) of the DSGVO. We assure you that we use the data exclusively for the purpose of contract initiation, organisation, implementation and follow-up of the CAREER FAIR LOCATIONS. More detailed information on data protection can be viewed at <https://tu-freiberg.de/datenschutz>

/→ Explanation of the offers //////////////////////////////////////

1. Exhibition stand

The organiser creates a virtual booth for each registered company. The look is standardised and equipped with more or fewer functions depending on the stand package, but each stand is designed in such a way that it can be visually assigned to the company. The following elements serve this purpose:

Desk

Similar to an analog career fair, the counter is the eye-catcher of each booth. It is designed in your company color and logo. The basic package also includes the name of your company.

Stand banner (only included in the Comfort and Premium package)

Stand banners are another element that allows the recognition of the company. They are designed with the name and color or logo of the company. Note: The font is standardised.

Avatar

Behind each counter there is a virtual person (static). In the "Comfort" and "Premium" packages, you have the option of using a photo of your stand supervisor (shot from the waist up) as an avatar. We recommend that you use this option, as it makes the booth more personal. If you do not want personalisation or book the basic package, drawn figures will be used at this point.

2. Clickable stand elements

Depending on the package selected, the stands are equipped with various elements into which informative materials can be integrated. You will be given the opportunity to provide us with your data digitally. We will contact either you or the person specified in the registration form. It is of course possible to reuse files already available from previous career fairs! In this case, we will send you a copy of the last available data after your order to confirm the information.

Roll-up

This area can be used for posters or similar in portrait format. Visitors have the possibility to click on it to view the deposited element in a higher resolution.

Display

Text and image-based files, for example flyers or brochures in PDF format (no videos) can be stored here. Click on it to open the files for a larger view.

Video element (only included in the Comfort and Premium package)

It is possible to include a video of the company, e.g. an image film, in the exhibition stand. Alternatively, another visual element can appear there.

Multimedia element (only included in Premium package)

In the exhibition stand there is the possibility to integrate another multimedia element, e.g. another image film, a picture gallery or a company presentation.

3. Communications elements

Text and video chat (only included in the Comfort and Premium packages)

Of course, you can also communicate directly with visitors during the active time at the online career fair. The exact times depend on the stand package booked.

The organiser creates a separate chat room for each company, which visitors can access via a link in the stand. Exhibiting companies and visitors can thus communicate in real time, either in writing or via webcam and microphone.

Email and postal contact details, link to website and social media presence, company phone contact

Clickable fields in the booth allow visitors to find out how they can stay in touch with your company. The company's homepage (or a desired subpage) and social media presences are also linked here.

Appointment booking for the Active Days of the career fair (only included in the Premium Package)

Visitors can find out more about the exhibiting companies in the run-up to the career fair. A virtual appointment calendar is embedded under your company portrait, which interested parties can use to book appointments with you during the active time.

Job offers

Each company can place current or general job offers (jobs, theses, internships) on its stand. The number is limited to three in the package price.

All stand packages also include inclusion in the career fair-wide job portal, where visitors can search for current ads. The number of ads included in the package price is limited to three. You have the option of publishing additional offers in the career fair job portal. Please note that this additional service is subject to a fee (See prices at [table on page 19](#)).

4. Supplementary advertising opportunities

If you wish, you can create even more points of contact with your company during the career fair beyond your virtual booth.

Highlighted presence at the career fair (only included in the Premium package)

The company will also be presented at the Career Center's virtual booth.

Company presentation in the presence advertising (only included in the Premium Package, optionally available with the other stand packages))

During an advertising campaign (waffle stand) on campus one week before the career fair, the organiser will also display your posters or flyers. This service is included in the Premium Package. When booking other stand packages, it can be booked as an additional option. Please note that this additional service is subject to a fee. (See prices at [table on page 19](#)).

Your logo on posters at the career fair (can be added for a fee))

Companies are given the opportunity to appear with their company logo on the fair posters for the announcement and implementation period of the career fair.

Please note that this additional service is subject to a fee (See prices at [table on page 19](#)).

There is no entitlement to the placement of your logo. The Career Center decides at its discretion whether to include your logo on these advertising materials within the scope of the available capacities (see § 2 paragraph 1 of the GTC). We will inform you whether you can be considered with your contract confirmation.

Lecture (can be booked additionally for a fee)

You have the opportunity to apply for a complementary presentation of your company or institution in the form of a lecture (30 minutes lecture including optional discussion round). Please note that this additional service is associated with a fee (See prices at [table on page 19](#)).

There is no entitlement to such a supplementary presentation. The Career Center will decide on your participation at its own discretion within the framework of the available server and time capacities (see § 2 paragraph 1 of the GTC). We will inform you whether you can be considered with your confirmation of contract.

/→ General terms and conditions //

**// for the career fair on 9th and 10th of June 2021 //
// at the TU Bergakademie Freiberg**

§ 1 Contract purpose

- (1) The contract concluded between TU Bergakademie Freiberg (organiser) and the exhibitor serves the participation of the exhibitor in the online ORTE. The contact person on the TU Bergakademie Freiberg website is the Career Center for registration and implementation of the event.
- (2) The purpose of the event is for exhibitors to present themselves as potential employers for students and alumni.

§ 2 Conclusion of contract

- (1) The sending of the registration form by the organiser does not constitute an offer. The contract is concluded when the exhibitor sends the completed registration form to the organiser either electronically or by post and the registration is confirmed by the organiser in text form. According to capacity and at the organiser's discretion, exhibitor presentations, advertising space and career fair partnerships will be allocated after the end of the registration period and all applicants will be informed of the extent to which they can be considered. Admission to the online ORTE is only valid for the exhibitor and other services specified in the confirmation. Any reservations or conditions included in the application must be expressly confirmed in text form by the organiser in order to be effective. A temporary confirmation of participation is not a confirmation in the aforementioned sense and therefore does not lead to the conclusion of a contract.
- (2) With the registration the general terms and conditions of the contract are bindingly accepted by the applicant.
- (3) The exhibitor's general terms and conditions of contract do not apply. The exhibitor accepts this with his registration. If the exhibitor nevertheless refers to his own contractual conditions in the application, this shall be deemed not to have been written

§ 3 Services of the organiser

The organiser offers the following services. The binding subject of performance for the specific contract is based on the binding services specified in the written confirmation of the organiser. The organiser offers the following services, among others, subject to availability:

- Creation of a virtual stand on the online ORTE
- the publication of the exhibitor's logo on the relevant websites of the organiser
- the publication of three job advertisements, thesis or internship announcements at the respective virtual company stand
- provision of advertising space at the virtual Career Center stand
- publication of company logos on posters

§ 4 Stand fee

The exhibitor pays a fee for the stand at the career fair, which is based on the number of employees of the company and the booked stand package. This fee includes the following services

- the virtual stand space with the interaction possibilities
- the advertising of the career fair

In addition to the stand fee for the above services, fees will be charged for the following services:

- Job advertisements in the career fair's own job portal that go beyond the stand package
- Publication of company logos on posters
- Presentations to promote your company
- Company presentation in the presence advertising

The fees for additional services are based on the number of employees in your company in Germany. Please refer to the table in the appendix for the price structure.

Calculation example: You would like to book a virtual stand in the Comfort package. Let's assume you currently have 140 employees in Germany. You would therefore fall into the price category < 201 employees. The stand fee including the services listed above would therefore be 750 euros. If you also ordered a presentation and the publication of your logo on the posters, the fees would be calculated as follows:

750 €	Stand fee for a number of employees <201 in the Comfort Package
100 €	Lecture
100 €	Logo publication
950 €	(plus VAT)

The costs will be invoiced by the organiser. Please transfer the amount within the next four weeks after receipt of the invoice to the organiser's account indicated in the invoice, quoting the invoice number.

§ 5 Advertising

- (1) The organiser is obliged to advertise the event. The form, content and scope of advertising are exclusively at the discretion of the organiser.
- (2) The exhibitor is obliged to provide the organiser with all information and documents upon request in due time. If the exhibitor does not fulfill this obligation, the organiser is entitled to mention the participant in the advertising for the event only to the extent of the information provided..
- (3) Advertising measures of the exhibitor for the event require the consent of the organiser. This approval will only be granted if TU Bergakademie Freiberg is expressly identified as the organiser in the exhibitor's advertising measures for the ORTE Career Fair. This paragraph also applies to advertising measures of third parties on behalf of the exhibitor
- (4) For the purpose of the contract, the organiser shall use the logo(s) or brand(s) as well as the transmitted advertising content of the exhibitor. The exhibitor agrees to the use of the logo/logos or the brand/brands as well as the transmitted advertising content for the purpose of the contract.

§ 6 Cancellation

- (1) The exhibitor has the right to cancel his participation. This is to be declared in text form to the organiser.
- (2) If the cancellation is received by the organiser more than six weeks before the start of the event, the exhibitor shall remain obligated to pay half of the agreed fee to the organiser. If the cancellation is received by the organiser less than six weeks before the start of the event, the exhibitor

shall remain obligated to pay the full amount of the agreed fee. The exhibitor reserves the right to prove that the organiser has suffered a lesser loss.

- (3) The organiser reserves the right to exclude the exhibitor from participation in the event for good cause. In this case, all obligations and demands that otherwise exist in the case of an otherwise valid contract shall become null and void on both sides.

§ 7 Exclusion from the event

If the exhibitor's presentation through exhibits and linked content, advertising materials, the behavior of its employees or in any other way does not directly aim to present the exhibitor as a future employer to the students and alumni of TU Bergakademie Freiberg, then the organiser may exclude the exhibitor from the event. The exhibitor remains obligated to pay the agreed fees; proof of a lesser loss is admissible.

§ 8 Cancellation of the event

The organiser is entitled to cancel the event if its execution is endangered or not enough exhibitors have registered for the event. In this case, the exhibitor will be reimbursed for any fees already paid.

§ 9 Liability

(1) The organiser shall be liable for damages - regardless of the legal grounds - in the event of intent and gross negligence. In the case of simple negligence, the organiser shall only be liable for

a) for damages resulting from injury to life, body or health,

b) for damages resulting from the violation of an essential contractual obligation; in this case, the liability is limited to the compensation of the foreseeable, typically occurring damage.

(2) Insofar as the liability of the organiser is effectively excluded or limited in accordance with the above rules, this shall also apply to the personal liability of the employees, other staff, representatives and vicarious agents of the organiser.

(3) The claim for compensation of lost profit is excluded in any case.

(4) The organiser is not liable to the exhibitor for damages caused by visitors to the event, regardless of the nature of fault.

(5) The organiser is not liable for infringements of the rights of third parties through the use of the content or functions provided online..

(6) The organiser is not responsible for malfunctions of the technical functions or the transmission paths outside his own sphere of influence. In such cases, the exhibitor remains obligated to pay the agreed fees..

§ 10 Text form

Deviations from the content of this agreement as well as additions are only effective if the organiser confirms them in text form.

§ 11 Applicable law and place of jurisdiction

The law of the Federal Republic of Germany shall apply. The exclusive place of jurisdiction for all disputes arising from or in connection with this contract is, to the extent permitted by law, Freiberg/Saxony.

§ 12 Validity of the German version

The exhibitor may receive an English translation of the German original of the contract documents. In case of discrepancies between the German and the English version or in other cases of doubt, the German version shall prevail.

§ 13 Severability clause

Should individual provisions of the agreements made be invalid, this shall not affect the validity of the remaining provisions. The invalid provision shall be amended in such a way that the intended purpose is achieved.

/→ Price list////////////////////////////////////

The package price results from the number of employees in your company.

Stand package	Category 1 (1-200 Employees)	Category 2 (201-1000 Employees)	Category 3 (more than 1000 Employees)

Your logo on the career fair posters	100 € (netto)	100 € (netto)	100 € (netto)
Company presentation in advertising (included in the Premium package)	40 € (netto)	40 € (netto)	40 € (netto)

/→ The most important dates at a glance //////////////////////////////////

// for the career fair ORTE on 9th and 10th of June 2021 ////
//////////////////////////////// at the TU Bergakademie Freiberg //////////////////////////////////

March 31st 2021	End of the registration period
April 30th 2021	End of the deadline for the submission of - Names and contact details of stand supervisors - Logos & graphics for the exhibition stand & the digital exhibitor portrait - Company information for the exhibition stand & the digital exhibitor portrait - Video and graphic elements to be included
May 31st 2021	End of the deadline for the submission of job advertisements
June 9th and 10th 2021 9:00 a.m. - 12:00 noon	Active days of the online ORTE (according to your package booking)

Note: These deadlines serve to ensure that the ORTE is carried out in accordance with the contract. If you need more time, please let us know at least one week before the end of the respective deadline. Otherwise, we will no longer be able to accommodate your requests. However, we must receive your data no later than June 1, 2021.

/→ **Questions and answers**//

Why does the ORTE take place online again?

The first online ORTE in January 2021 showed that virtual career events work. We are using this experience to expand our offering.

Unfortunately, from today's perspective, we cannot assume that we will be able to hold a face-to-face fair in June without restrictions. Numerous partners are involved in the organization, for example the city of Freiberg and the high school, whose sports hall we normally use, hotels, catering providers, transportation companies, etc. None of the mentioned institutions can already make statements about how the situation will be in a few months. Pandemic-related, short-term restrictions, especially a campus closure, would lead to a complete cancellation.

Nevertheless, it is our concern to offer the possibility of contact between students and companies in the form of the ORTE also in the summer semester.

During the career fair, can we see which visitors are already at ORTE and actively address them?

This is not possible with our technical solution. Such a function is based on an extensive collection of data that goes beyond the purpose of the career fair. As a university, we are particularly called upon to be economical with data. The use of external services that offer these functions has high data protection hurdles for us and would be reflected in the stand fee.

Therefore, we work with applications at the Online-ORTE, whose servers are assigned to TU Bergakademie Freiberg or the Free State of Saxony. This also allows us to increase acceptance among visitors, as they do not have to register on the platform, can organise their visit to the career fair on their own responsibility and do not have to worry that their activities will be tracked and evaluated in a personalised manner.

Why do you offer virtual chat rooms in BigBlueButton and not use other services?

The BigBlueButton web conferencing system has proven itself for virtual events and, based on experience, can be used in many corporate networks.

We cannot and do not want to oblige you as an exhibiting company to use an external service where we have no influence on data processing and storage. In the case of BigBlueButton, the servers are owned by the University.

Use of the BigBlueButton rooms is voluntary. If you wish, you can use another service that you have already established in your company. In that case, however, the technical and data protection responsibilities lie with you.

Where do you advertise the career fair?

We use all channels available to us to make students aware of ORTE. We distribute posters on campus and in the city, write internal newsletters, publish articles on our social media platforms, distribute press releases via our press office and ask the professors of our university to draw attention to the fair in their lectures. We also pass on the promotional materials to our partner universities with the request that they publish them on their channels. Of course, we are dependent on the assistance of the respective employees.

If conditions allow, we would like to promote ORTE and participating exhibiting companies more strongly on campus, for example with a waffle stand.
