

**Modulhandbuch
für den
Masterstudiengang
Groundwater Management**

Inhaltsverzeichnis

| | |
|--|----|
| Abkürzungen | 3 |
| Corporate Sustainability and Risk Management | 4 |
| Deutsch A1/ 1. Semester | 5 |
| Deutsch A1/ 2. Semester | 6 |
| Deutsch A2/ 1. Semester | 7 |
| Deutsch A2/ 2. Semester | 8 |
| Deutsch B1/ 1.Semester | 9 |
| Deutsch B1/ 2. Semester | 10 |
| Environmental Geotechnics | 11 |
| Environmental Management and Policies | 12 |
| European Values and Culture | 13 |
| Geo-scientific Communication | 14 |
| Geomodelling – Geostatistics for Natural Resource Modelling | 16 |
| Geomonitoring | 18 |
| Ground Water Chemistry for GW-Management - Advanced | 20 |
| Ground Water Chemistry for GW-Management - Basics | 22 |
| Human Resource Management and Organizational Behavior | 24 |
| Hydrogeological Flow and Transport Modelling for GW-Management | 25 |
| Hydrogeology for GW-Management - Advanced | 27 |
| Hydrogeology for GW-Management - Basics | 29 |
| Information Management | 31 |
| International Business and Management | 32 |
| International Development and Resources | 34 |
| Master Thesis Groundwater Management | 36 |
| Microbiology for Resource Scientists: Lab Course | 38 |
| Mine Water I – Formation and Treatment | 39 |
| Mine Water II – Dewatering, Technical Devices, Projects | 41 |
| Operations Management | 43 |
| Project Risk Management | 44 |
| Resource Management | 45 |
| Responsible Consumption | 47 |
| Tracers in Hydrogeology | 49 |

Abkürzungen

KA: schriftliche Klausur / written exam

MP: mündliche Prüfung / oral examination

AP: alternative Prüfungsleistung / alternative examination

PVL: Prüfungsvorleistung / prerequisite

MP/KA: mündliche oder schriftliche Prüfungsleistung (abhängig von Teilnehmerzahl) / written or oral examination (dependent on number of students)

SS, SoSe: Sommersemester / sommer semester

WS, WiSe: Wintersemester / winter semester

SX: Lehrveranstaltung in Semester X des Moduls / lecture in module semester x

SWS: Semesterwochenstunden

| Data: | CSRM. MA. Nr. 2908 / Examination number: 62405 | Version: 19.02.2018  | Start Year: SoSe 2017 |
| Module Name: | Corporate Sustainability and Risk Management | | |
| (English): | | | |
| Responsible: | Glöser-Chahoud, Simon / Prof. | | |
| Lecturer(s): | Glöser-Chahoud, Simon / Prof. | | |
| Institute(s): | Corporate Sustainability and Environmental Management | | |
| Duration: | 1 Semester(s) | | |
| Competencies: | The students are able to identify, discuss and solve fundamental problems of sustainability and risk management in companies. | | |
| Contents: | <p>Among others the topics of the course comprise:</p> <ul style="list-style-type: none"> • Originis the sustainability concept • Relevance of the sustainability concept for companies • Methods and tools for the operationalisation of sustainability management, • Relevance of corporate risk management • The risk management cycle • Methods and tools for corporate risk management. | | |
| Literature: | <ul style="list-style-type: none"> • Anderson (2005): Corporate Survival: The Critical Importance of Sustainability Risk Management, iUniverse • Bertsch (2011): Uncertainty handling in multi-attribute decision support for industrial risk management , KIT Scientific Publishing • Borghesi, Gaudenzi (Eds., 2013): Risk Management, Springer • Merz (2011): Entwicklung einer indikatorenbasierten Methodik zur Vulnerabilitätsanalyse für die Bewertung von Risiken in der industriellen Produktion, KIT Scientific Publishing • Okpara, Idowu (Eds., 2013): Corporate Social Responsibility, Springer • Pojasek, R.B. (2017): Organizational Risk Management and Sustainability: A Practical Step-by-Step Guide, CRC Press • Taticchi, Carbone, Albino (Eds., 2013): Corporate Sustainability, Springer | | |
| Types of Teaching: | S1 (SS): Lectures (2 SWS) S1 (SS): Exercises (2 SWS) | | |
| Pre-requisites: | | | |
| Frequency: | yearly in the summer semester | | |
| Requirements for Credit Points: | <p>For the award of credit points it is necessary to pass the module exam. The module exam contains: KA [90 min]</p> <p>Voraussetzung für die Vergabe von Leistungspunkten ist das Bestehen der Modulprüfung. Die Modulprüfung umfasst: KA [90 min]</p> | | |
| Credit Points: | 6 | | |
| Grade: | The Grade is generated from the examination result(s) with the following weights (w): KA [w: 1] | | |
| Workload: | The workload is 180h. It is the result of 60h attendance and 120h self-studies. | | |

| | | | |
|---|---|--|------------------|
| Daten: | DEU A1/ 1.Sem. BA. Nr. 948 / Prüfungs-Nr.: 71101 | Stand: 04.08.2017  | Start: WiSe 2016 |
| Modulname: | Deutsch A1/ 1. Semester | | |
| (englisch): | German A 1/ 1st Semester | | |
| Verantwortlich(e): | Polanski, Katja | | |
| Dozent(en): | | | |
| Institut(e): | Internationales Universitätszentrum/ Sprachen | | |
| Dauer: | 1 Semester | | |
| Qualifikationsziele / Kompetenzen: | Im Kurs werden Grundlagen in Phonetik, Orthographie, Grammatik und Lexik vermittelt. Die Teilnehmer erwerben Grundkenntnisse und Grundfertigkeiten im Hören, Sprechen, Lesen und Schreiben auf der Basis der Allgemeinsprache sowie landeskundliche Kenntnisse. | | |
| Inhalte: | Kommunikation im Alltag (Menschen kennen lernen, Einkaufen, Restaurantbesuch, Tagesabläufe, Uhrzeit); Grammatik: zum Beispiel Fragestellungen, Zahlen, Konjugation der Verben, Präsens und Präteritum, Mengenangaben, Plural der Nomen, Komposita | | |
| Typische Fachliteratur: | Begegnungen A1+, Schubert Verlag | | |
| Lehrformen: | S1 (WS): Übung (4 SWS) | | |
| Voraussetzungen für die Teilnahme: | Empfohlen: Keine Vorkenntnisse der deutschen Sprache notwendig | | |
| Turnus: | jährlich im Wintersemester | | |
| Voraussetzungen für die Vergabe von Leistungspunkten: | Voraussetzung für die Vergabe von Leistungspunkten ist das Bestehen der Modulprüfung. Die Modulprüfung umfasst: KA [90 min] PVL: Erfolgreiche aktive Teilnahme an mindestens 80% des Unterrichts PVL müssen vor Prüfungsantritt erfüllt sein bzw. nachgewiesen werden. | | |
| Leistungspunkte: | 4 | | |
| Note: | Die Note ergibt sich entsprechend der Gewichtung (w) aus folgenden(r) Prüfungsleistung(en): KA [w: 1] | | |
| Arbeitsaufwand: | Der Zeitaufwand beträgt 120h und setzt sich zusammen aus 60h Präsenzzeit und 60h Selbststudium. | | |

| | | | |
|---|--|--|------------------|
| Daten: | DEU A1/ 2. Sem. BA. Nr. 949 / Prüfungs-Nr.: 71102 | Stand: 04.08.2017  | Start: SoSe 2017 |
| Modulname: | Deutsch A1/ 2. Semester | | |
| (englisch): | German A1/ 2nd Semester | | |
| Verantwortlich(e): | Polanski, Katja | | |
| Dozent(en): | | | |
| Institut(e): | Internationales Universitätszentrum/ Sprachen | | |
| Dauer: | 1 Semester | | |
| Qualifikationsziele / Kompetenzen: | Im Kurs werden Grundlagen in Phonetik, Orthographie, Grammatik und Lexik vermittelt. Die Teilnehmer erwerben Grundkenntnisse und Grundfertigkeiten im Hören, Sprechen, Lesen und Schreiben auf der Basis der Allgemesprache sowie landeskundliche Kenntnisse. | | |
| Inhalte: | Orientierung in der Stadt beziehungsweise in der Firma, öffentliche Verkehrsmittel, Wegbeschreibung, Berufe und Arbeitsalltag, Körper und Gesundheit, Wohnungssuche und -einrichtung, Lebenslauf, Kleidung; Grammatik: zum Beispiel Präpositionen, Frageartikel, Modalverben, Possessivartikel, Perfekt, Konjunktionen, Demonstrativpronomen, Graduierung und Komparativ | | |
| Typische Fachliteratur: | Begegnungen A1+, Schubert Verlag | | |
| Lehrformen: | S1 (SS): Übung (4 SWS) | | |
| Voraussetzungen für die Teilnahme: | Obligatorisch: Deutsch A1/ 1. Semester, 2015-08-26 oder äquivalente Sprachkenntnisse | | |
| Turnus: | jährlich im Sommersemester | | |
| Voraussetzungen für die Vergabe von Leistungspunkten: | Voraussetzung für die Vergabe von Leistungspunkten ist das Bestehen der Modulprüfung. Die Modulprüfung umfasst: KA [90 min] PVL: Aktive Teilnahme an mind. 80% des Unterrichts PVL müssen vor Prüfungsantritt erfüllt sein bzw. nachgewiesen werden. | | |
| Leistungspunkte: | 4 | | |
| Note: | Die Note ergibt sich entsprechend der Gewichtung (w) aus folgenden(r) Prüfungsleistung(en): KA [w: 1] | | |
| Arbeitsaufwand: | Der Zeitaufwand beträgt 120h und setzt sich zusammen aus 60h Präsenzzeit und 60h Selbststudium. Der Zeitaufwand beträgt 120 Stunden und setzt sich zusammen aus 60 Stunden Präsenzzeit und 60 Stunden Selbststudium. | | |

| | | | |
|---|--|--|------------------|
| Daten: | DEU A2/1. Sem. BA.Nr. 950 / Prüfungs-Nr.: 71103 | Stand: 04.08.2017  | Start: WiSe 2016 |
| Modulname: | Deutsch A2/ 1. Semester | | |
| (englisch): | German A2/ 1st Semester | | |
| Verantwortlich(e): | Polanski, Katja | | |
| Dozent(en): | | | |
| Institut(e): | Internationales Universitätszentrum/ Sprachen | | |
| Dauer: | 1 Semester | | |
| Qualifikationsziele / Kompetenzen: | Die Teilnehmer erweitern ihre Kenntnisse zu Grundlagen der deutschen Grammatik sowie ihren alltagspraktischen Wortschatz und führen Gespräche zu verschiedenen Themen des Alltags. | | |
| Inhalte: | Familie und Verwandtschaft, Feste und Feiern in Deutschland, Wohnung und Wohnungseinrichtung, Schule und Ausbildung, Aussehen und Mode, Jahreszeiten, Wetter und Urlaub, Aspekte der Geschichte (Deutschland, Österreich, Schweiz); Grammatik: z.B. Nebensätze mit weil, wenn, dass; Rektion der Verben; Ordinalzahlen; Präpositionen; Reflexivpronomen; Zukunft ausdrücken; Adjektivdeklination | | |
| Typische Fachliteratur: | Begegnungen A2+, Schubert Verlag | | |
| Lehrformen: | S1 (WS): Übung (4 SWS) | | |
| Voraussetzungen für die Teilnahme: | Obligatorisch: Deutsch A1/ 2. Semester, 2015-08-26 oder äquivalente Sprachkenntnisse | | |
| Turnus: | jährlich im Wintersemester | | |
| Voraussetzungen für die Vergabe von Leistungspunkten: | Voraussetzung für die Vergabe von Leistungspunkten ist das Bestehen der Modulprüfung. Die Modulprüfung umfasst: KA [90 min] PVL: Aktive Teilnahme an mind. 80% d. Unterrichts PVL müssen vor Prüfungsantritt erfüllt sein bzw. nachgewiesen werden. | | |
| Leistungspunkte: | 4 | | |
| Note: | Die Note ergibt sich entsprechend der Gewichtung (w) aus folgenden(r) Prüfungsleistung(en): KA [w: 1] | | |
| Arbeitsaufwand: | Der Zeitaufwand beträgt 120h und setzt sich zusammen aus 60h Präsenzzeit und 60h Selbststudium. | | |

| | | | |
|---------------------------------|--|--|-----------------------|
| Data: | SUSBFR. MA. Nr. 090 / Examination number: 35706 | Version: 26.03.2021  | Start Year: SoSe 2021 |
| Module Name: | Environmental Geotechnics | | |
| (English): | | | |
| Responsible: | Butscher, Christoph / Prof. Dr. | | |
| Lecturer(s): | Butscher, Christoph / Prof. Dr. | | |
| Institute(s): | Institute of Geotechnics | | |
| Duration: | 1 Semester(s) | | |
| Competencies: | Students become familiar with topics of environmental geotechnics. They know the relevance and consequences of abandoned contaminated sites, waste disposal and old mining. They understand the respective processes and can discuss and plan mitigation measures. | | |
| Contents: | <p><u>Waste disposal</u>: scientific fundamentals; legal framework; geological-hydrogeological aspects of construction and operation of landfills, industrial sedimentation basins and deep geological repositories; computer-aided stability analysis; preparation of a geotechnical report.</p> <p><u>Old mining</u>: legal framework; exploration methods; methods of assessment, remediation and securing; regional topics in Saxony (lignite open pits, uranium mining); water management of flooded underground mines; international case studies.</p> | | |
| Literature: | Price, D.G.: Engineering Geology, Principles and Practice, Springer-Verlag, Berlin-Heidelberg, 2009 Suthersan et al. (2017): Remediation Engineering. CRC Press, Boca Raton Daniel (ed.) (1993): Geotechnical Practice for Waste Disposal. Chapman & Hall, London | | |
| Types of Teaching: | S1 (SS): Waste disposal - Waste disposal / Lectures (1 SWS) S1 (SS): Old mining - Old mining / Lectures (1 SWS) | | |
| Pre-requisites: | Recommendations: B.Sc. in Geosciences or Geo-Engineering; Basic Knowledge of Geosystems | | |
| Frequency: | each semester | | |
| Requirements for Credit Points: | For the award of credit points it is necessary to pass the module exam. The module exam contains: KA: Environmental Geotechnics [120 min] Voraussetzung für die Vergabe von Leistungspunkten ist das Bestehen der Modulprüfung. Die Modulprüfung umfasst: KA: Umweltgeotechnik [120 min] | | |
| Credit Points: | 3 | | |
| Grade: | The Grade is generated from the examination result(s) with the following weights (w): KA: Environmental Geotechnics [w: 1] | | |
| Workload: | The workload is 90h. It is the result of 30h attendance and 60h self-studies. Latter includes the review of the teached materials and exam preparation. | | |

| | | | |
|---------------------------------|---|--|-----------------------|
| Data: | ENVMGTPOL. MA. Nr. 2909 / Examination number: 62403 | Version: 31.05.2018  | Start Year: WiSe 2018 |
| Module Name: | Environmental Management and Policies | | |
| (English): | | | |
| Responsible: | Glöser-Chahoud, Simon / Prof. | | |
| Lecturer(s): | Glöser-Chahoud, Simon / Prof. | | |
| Institute(s): | Corporate Sustainability and Environmental Management | | |
| Duration: | 1 Semester(s) | | |
| Competencies: | Students are able to identify and explain environmental issues accruing in companies. They explain the origin of environmental impacts, the framework which has to be considered and are able to apply selected methods and tools to solve (simplified) problems accruing in practice. They discuss the status of these methods and tools with regard to real problem instances and the current scientific literature and political discussion. | | |
| Contents: | <p>The course covers among others:</p> <ul style="list-style-type: none"> • Environmental impacts of industrial and business activities, • Societal, economic and legal frameworks of environmental protection, • Environmental Management Systems, and • Methods and tools of Cleaner Production. | | |
| Literature: | <ul style="list-style-type: none"> • Calow (1999): Blackwells Concise Encyclopedia of Environmental Management, John Wiley & Sons • Dobson (2016): Environmental Politics, Oxford University Press • Russo (2008): Environmental Management: Readings and Cases, Sage Pubn • Schaltegger, Burritt, Petersen (2003): An Introduction to Corporate Environmental Management, Greenleaf Publishing • Tinsley, Pillai (2016): Environmental Management Systems: Understanding Organizational Drivers and Barriers, Routledge | | |
| Types of Teaching: | <p>S1 (WS): Lecture Environmental Management and Policies / Lectures (2 SWS)</p> <p>S1 (WS): Tutorial Environmental Management and Policies / Exercises (2 SWS)</p> | | |
| Pre-requisites: | | | |
| Frequency: | yearly in the winter semester | | |
| Requirements for Credit Points: | <p>For the award of credit points it is necessary to pass the module exam.</p> <p>The module exam contains:</p> <p>KA [90 min]</p> <p>Voraussetzung für die Vergabe von Leistungspunkten ist das Bestehen der Modulprüfung. Die Modulprüfung umfasst:</p> <p>KA [90 min]</p> | | |

| Grade: | <p>The Grade is generated from the examination result(s) with the following weights (w):</p> <p>KA [w: 4]</p> | | |
| Workload: | The workload is 180h. It is the result of 60h attendance and 120h self-studies. | | |

| | | | |
|---------------------------------|--|--|-----------------------|
| Data: | EURVAL. BA.Nr. / Examination number: 31733 | Version: 04.07.2022  | Start Year: SoSe 2023 |
| Module Name: | European Values and Culture | | |
| (English): | European Values and Culture | | |
| Responsible: | Drebenstedt, Carsten / Prof. Dr. | | |
| Lecturer(s): | Bongaerts, Jan C. / Prof. Dr. | | |
| Institute(s): | Professor of Environmental & Resource Management Institute of Mining and Special Civil Engineering | | |
| Duration: | 1 Semester(s) | | |
| Competencies: | Students learn to understand the origins and the development of European values within the European cultural context. They understand the relevance and importance of European Values for technology development and for management processes at all levels. They understand how to integrate European Values into the value creation of business and other organizations. | | |
| Contents: | The origins of European values from Antiquity and Early Christianity through Renaissance, the Enlightenment and the French Revolution to postwar European political initiatives and modern-day trends. Insights in the relevance of European values for the development of public administrations and society, the advancement of education and research and the management of business operations of all kinds. Potential threats to Europe by “competing” value systems Applications to specific areas of technology innovation with a reflection of the respective Sustainable Development Goals. Examples include technologies and systems for mobility, agriculture and food production, IT and data management, intergenerational equity and the circular economy, health, safety and job satisfaction. | | |
| Literature: | Halman, L., Reeskens, T., Sieben, I., & Zundert, M. van. (2022). Atlas of European Values. <i>Open Press TiU</i> . DOI: 10.26116/p8v-tt12 Soboleva, N. (2022), “The determinants of the link between life satisfaction and job satisfaction across Europe”, <i>International Journal of Sociology and Social Policy</i> , Vol. ahead-of-print No. ahead-of-print. https://doi.org/10.1108/IJSSP-06-2021-0152 | | |
| Types of Teaching: | S1 (SS): Lectures (2 SWS) S1 (SS): Seminar (1 SWS) | | |
| Pre-requisites: | | | |
| Frequency: | yearly in the summer semester | | |
| Requirements for Credit Points: | For the award of credit points it is necessary to pass the module exam. The module exam contains: AP: Presentation with Questions and Answers [45 min] AP: term paper (minimally 12 pages) Voraussetzung für die Vergabe von Leistungspunkten ist das Bestehen der Modulprüfung. Die Modulprüfung umfasst: AP: Präsentation mit Fragen und Antworten [45 min] AP: Ausarbeitung (mindestens 12 Seiten) | | |
| Credit Points: | 5 | | |
| Grade: | The Grade is generated from the examination result(s) with the following weights (w): AP: Presentation with Questions and Answers [w: 1] AP: term paper (minimally 12 pages) [w: 1] | | |
| Workload: | The workload is 150h. It is the result of 45h attendance and 105h self-studies. | | |

| | | | |
|---------------------------------|--|---------------------|-----------------------|
| Data: | GSC. MA. Nr. 3630 / Examination number: 31724 | Version: 04.07.2018 | Start Year: SoSe 2019 |
| Module Name: (English): | Geo-scientific Communication | | |
| Responsible: | Drebenstedt, Carsten / Prof. Dr. Hoth, Nils / Dr. | | |
| Lecturer(s): | Jacob, Mark / Dr. Hoth, Nils / Dr. | | |
| Institute(s): | International Centre/ Languages Institute of Mining and Special Civil Engineering | | |
| Duration: | 1 Semester(s) | | |
| Competencies: | The course intends to give students the knowledge and the ability to perform scientific database research. Furthermore they will be able to structure and document their scientific work and results. Also they learn more about scientific writing (of a paper), as well as to present and defence their results (oral talk). This is very important before writing their MSc-thesis. | | |
| Contents: | <ul style="list-style-type: none"> - dealing with scientific literature - Detailed database research, - citation of publications, - aspects about writing technical or review papers - structure your practical work in relation to the Master thesis (deal with sub-aspects) - Main ideas how to structure the written MSc-thesis in comparison to technical reports - dealing with the resources of the university library - search papers, therefore searching strategies <p>Oral communication (language of describing graphs, charts and diagrams)</p> <p>Argumentation line of talks</p> <p>Written communication - Language to link points and ideas, language of comparing and contrasting</p> <p>Major goals are learning and applying strategies of transporting scientific informations using different techniques and analogue and digital sources.</p> <p>AP main work</p> <p>working on a scientific topic for a defined time, prepare a paper (around 12 pages) in relation to a ground water, mine water or mining/ geoscience based topic. Students have to present their topic, argumentation line and basic literature (2 to 5 scientific papers) in before they start to write the paper. Afterwards, when they have handed in the paper, they have to give a presentation/ defence talk about this topic/ paper.</p> | | |
| Literature: | Cargill, M. [2013] : 2013 Writing scientific research articles and internal material | | |
| Types of Teaching: | S1 (SS): Lectures (1 SWS) S1 (SS): Exercises (2 d) | | |
| Pre-requisites: | Recommendations: basics in hydrogeology, groundwater chemistry and mine water | | |
| Frequency: | yearly in the summer semester | | |
| Requirements for Credit Points: | For the award of credit points it is necessary to pass the module exam. The module exam contains: AP*: writing a scientific research paper AP*: presentation and defence of the paper | | |

| | |
|----------------|---|
| | <p>* In modules requiring more than one exam, this exam has to be passed or completed with at least "ausreichend" (4,0), respectively.</p> <p>Voraussetzung für die Vergabe von Leistungspunkten ist das Bestehen der Modulprüfung. Die Modulprüfung umfasst: AP*: Fachartikel erstellen AP*: Vorstellung und Verteidigung des Fachartikels</p> <p>* Bei Modulen mit mehreren Prüfungsleistungen muss diese Prüfungsleistung bestanden bzw. mit mindestens "ausreichend" (4,0) bewertet sein.</p> |
| Credit Points: | 4 |
| Grade: | <p>The Grade is generated from the examination result(s) with the following weights (w): AP*: writing a scientific research paper [w: 2] AP*: presentation and defence of the paper [w: 1]</p> <p>* In modules requiring more than one exam, this exam has to be passed or completed with at least "ausreichend" (4,0), respectively.</p> |
| Workload: | The workload is 120h. It is the result of 31h attendance and 89h self-studies. (89 h are spent on preparation of the paper and preparing the presentation as well as self study). |

| | | | |
|---------------------------------|--|--|-----------------------|
| Data: | Geomod. MA. Nr. 638 / Examination number: 30114 | Version: 05.12.2018  | Start Year: WiSe 2019 |
| Module Name: (English): | Geomodelling - Geostatistics for Natural Resource Modelling | | |
| Responsible: | Benndorf, Jörg / Prof. Dr.-Ing. | | |
| Lecturer(s): | | | |
| Institute(s): | Institute for Mine Surveying and Geodesy | | |
| Duration: | 1 Semester(s) | | |
| Competencies: | <p>After successful completion of the course, students are able to:</p> <ul style="list-style-type: none"> - explain the theoretical foundation of spatial data analysis, geostatistical model building and estimation, - apply geostatistical methods in the context of estimating natural resources/reserves, - critically evaluate model assumptions of different estimation and simulation method and choose suitable methods for specific applications, - discuss the critical character of the SMU-size to recoverable reserves, - conduct a resource/reserve estimation in a simple case study. | | |
| Contents: | <p>Importance of Resource Modelling and Estimation in the Value Chain of Mining, Uni-variate and Multi-variate Explorative Data Analysis, Analysis of Spatial Continuity, the Spatial Random Function Model, Model Assumptions of Stationarity and Ergodicity, Inference of a Spatial Random Function using unbiased Estimators, Dealing with Preferential Sampling, Variography and Variogram Modeling, Simple Methods for Spatial Estimation including the Polygon Method, Triangulation, Inverse Distance Power and Polynomial Regression, Geostatistical Methods for Spatial Estimation including Simple Kriging, Ordinary Kriging and Universal Kriging, Integrating Secondary Information into Spatial Modeling using Techniques of Co-Kriging, other methods including Indicator Kriging and Block Kriging, Introduction in Modeling spatial Uncertainty using Conditional Simulation, the Method of Sequential Gaussian Simulation, Geostatistical Considerations in Estimating Reserves in Terms of Volume-Variance Relationship for defining Smallest Movable Units and Grade Tonnage Curves, Applications in Mining Cases, Introduction to CRIRSCO-based International Reporting standards (example JORC Code).</p> | | |
| Literature: | <p>M. Armstrong: "Basic Linear Geostatistics", Springer Verlag; H. Akin, H. Siemes: „Praktische Geostatistik“, Springer Verlag; A. G. Journel, and C.J. Huijbregts, 1978, Mining Geostatistics, Academic Press; P. Goovaerts: "Geostatistics for Natural Resource Evaluation", Oxford University Press; T. Schafmeister: "Geostatistik für die hydrogeologische Praxis", Springer Verlag</p> | | |
| Types of Teaching: | <p>S1 (WS): Geomodelling – Geostatistics for natural resource modelling - Lecture / Lectures (2 SWS) S1 (WS): Geomodelling – Geostatistics for natural resource modelling - Practical work in the computer lab / Practical Application (2 SWS)</p> | | |
| Pre-requisites: | <p>Recommendations: Angewandte Statistik, 2021-11-22 Infinitesimalrechnung, An introductory course in statistics.</p> | | |
| Frequency: | yearly in the winter semester | | |
| Requirements for Credit Points: | <p>For the award of credit points it is necessary to pass the module exam. The module exam contains: KA* [90 min]</p> | | |

| | |
|----------------|---|
| | <p>AP*: Set of assignments</p> <p>* In modules requiring more than one exam, this exam has to be passed or completed with at least "ausreichend" (4,0), respectively.</p> <p>Voraussetzung für die Vergabe von Leistungspunkten ist das Bestehen der Modulprüfung. Die Modulprüfung umfasst:</p> <p>KA* [90 min]</p> <p>AP*: Hausarbeiten</p> <p>* Bei Modulen mit mehreren Prüfungsleistungen muss diese Prüfungsleistung bestanden bzw. mit mindestens "ausreichend" (4,0) bewertet sein.</p> |
| Credit Points: | 5 |
| Grade: | <p>The Grade is generated from the examination result(s) with the following weights (w):</p> <p>KA* [w: 2]</p> <p>AP*: Set of assignments [w: 1]</p> <p>* In modules requiring more than one exam, this exam has to be passed or completed with at least "ausreichend" (4,0), respectively.</p> |
| Workload: | The workload is 150h. It consists of 60h presence time (lectures and practical), and 90 hours independent work including group work, practical, self-study and preparation for examination. |

| | | | |
|---------------------------------|--|---------------------|-----------------------|
| Data: | GEOMON. BA. 128 / Examination number: 33002 | Version: 05.12.2018 | Start Year: WiSe 2019 |

| (English): | | | |
| Responsible: | Benndorf, Jörg / Prof. Dr.-Ing. | | |
| Lecturer(s): | Benndorf, Jörg / Prof. Dr.-Ing. John, André / Dr.-Ing. | | |
| Institute(s): | Institute for Mine Surveying and Geodesy | | |
| Duration: | 1 Semester(s) | | |
| Competencies: | <p>Students are able to build on their knowledge about geodetic and geotechnical measurement methods on the one hand and their understanding about the geogenic/ antropogenic process to monitor on the other hand to generate reliable and effective monitoring concepts for spatial, temporal and spatio-temporal processes.</p> <p>Students are able to critically analyze monitoring concepts and interpret monitoring results.</p> | | |
| Contents: | <p>The lecture introduces to applications and to the methodological approach of geomonitoring. Starting on the basis of measurement and data acquisition techniques it discusses monitoring design aspects and statistical and model based inference strategies. The aim is to infer an understanding of geo-processes and their relevant spatio-temporal dynamics, including change detection.</p> <p>Topical application in the context of resource extraction impact- and environmental impact monitoring on different scales in time and space will be discussed and analyzed.</p> | | |

| Module Name: | Ground Water Chemistry for GW-Management - Advanced | | |
| (English): | | | |
| Responsible: | Drebenstedt, Carsten / Prof. Dr. Hoth, Nils / Dr. | | |
| Lecturer(s): | Hoth, Nils / Dr. Klammerth, Nikolaus / Dr. rer. nat. | | |
| Institute(s): | Institute of Mining and Special Civil Engineering Institute of Geology | | |
| Duration: | 1 Semester(s) | | |
| Competencies: | Students will gain confidence and experience in sampling, sample handling (conservation, storage) as well as measuring field parameters. Furthermore they enhance their knowledge about analytical techniques for groundwater. He gets a general understanding with respect to the use of isotopes to trace flow and reactive systems in the subsurface (within aquifers). In general they practice and deepen their knowledge about handling of photometry and other analytical techniques. | | |
| Contents: | <ul style="list-style-type: none"> - different analytical techniques <ul style="list-style-type: none"> wet chemistry (gravimetry, volumetry), spectroscopy, chromatography, electro-analysis - in detail: acid-base titration, UV-VIS and IR-spectroscopy - AAS, AES (MP-AES), hXRF Part of hydrogeochemical modelling - with PHREEQC <ul style="list-style-type: none"> speciation of a water sample , ionic balance error, saturation index equilibrium to mineral phases, interaction with a gas phase , cation exchange etc. Lecture groundwater chemistry (sampling and analytical techniques) combined with laboratory exercises Determination of limit of detection and limit of quantification. Using photometry for different species now again , in more detail Lecture isotope hydrology: Basics of isotope measurements in context to trace subsurface flow systems. Stable (H, O, C, N, S) isotopes in aquatic systems. Explanation of investigations on different test sites (field examples) – study and interpretation of flow and reactive systems. | | |
| Literature: | Stumm & Morgan (1996): Aquatic Chemistry. John, Wiley & Sons; APPELO & POSTMA (1996) or (2005): Geochemistry, groundwater and pollution, Balkema. CLARK & FRITZ (1997): Environmental Isotopes in Hydrogeology, Lewis Publishers. | | |
| Types of Teaching: | S1 (SS): GW chemistry - analytical techniques / Lectures (2 SWS) S1 (SS): Stable Istoppe hydrology - trace flow and reactions / Lectures (1 SWS) S1 (SS): groundwater chemistry - advanced practica / Practical Application (1 SWS) | | |
| Pre-requisites: | Recommendations: Ground Water Chemistry for GW-Management - Basics, 2018-07-04 | | |

| Institute(s): | International Management and Strategy | | |
| Duration: | 1 Semester(s) | | |
| Competencies: | <p>The primary objective of this course is to help you learn to diagnose management situations so that you will be able to transfer this skill to your working world. Specific objectives of the course include:</p> <ol style="list-style-type: none"> 1. Understanding the relevance of human resources for organizations and the key concepts of human behavior in organizations. 2. Appreciating how the human side of management is an essential complement to the technical skills you are learning in other courses. 3. Learning concepts and approaches that will enable you to analyze HR- and organizational problems and to develop appropriate solutions. 4. Developing the knowledge and skills you need to be a successful manager of yourself and others. | | |
| Contents: | <ol style="list-style-type: none"> 1. Introduction 2. Organizational Behavior (OB) <ol style="list-style-type: none"> 2.1 Individual level (foundations of individual behavior; impacts of individual characteristics; impact of situational factors) 2.2 Group level (foundations of group behavior, understanding work teams; group processes e.g., learning in teams) 2.3 Leadership 3. Human Resource Management (HRM) <ol style="list-style-type: none"> 3.1 Changing Nature of HRM 3.2 HRM Planning 3.3 Human Resource Adjustments 3.4 Training and Developing HR 3.5 Compensating HR Presentations and Conclusions | | |

| (English): | | | |
| Responsible: | Felden, Carsten / Prof. Dr. | | |
| Lecturer(s): | Felden, Carsten / Prof. Dr. | | |
| Institute(s): | Institute of IManagement Information Systems | | |
| Duration: | 1 Semester(s) | | |
| Competencies: | Students get a general view to understand integration of business and technology in companies. This course provides a comprehensive and integrative understanding of essential new technologies, information system applications, and their impact on business models and managerial decision making. From a managerial perspective, the course addresses an application of concepts regarding hardware, software, and data organization. The students will understand and apply basics of information systems with a focus on economic issues as well as the significance of information systems for companies and the practical information and communication technologies to increase the efficiency and effectiveness of information systems. | | |
| Contents: | <ol style="list-style-type: none"> 1. Introduction: the domain of business information systems 2. Organizations and systems 3. Data, information, and knowledge 4. Information systems, and organizational infrastructure 5. Communication infrastructure 6. ICT systems infrastructure 7. The business environment 8. Electronic business, electronic commerce, and electronic government 9. Assessing the use and impact of information systems 10. Planning, strategy, and management 11. Services, projects and operations 12. Information systems development 13. Successful informatics practice | | |

| Data: | INTMAN. MA. Nr. 2072 / Examination number: 62007 | Version: 23.04.2020  | Start Year: SoSe 2016 |
| Module Name: (English): | International Business and Management | | |
| Responsible: | Stephan, Johannes / Prof. Dr. | | |
| Lecturer(s): | Stephan, Johannes / Prof. Dr. | | |
| Institute(s): | Professor of International Resource Policy and Economic Development | | |
| Duration: | 1 Semester(s) | | |
| Competencies: | <p>The intention of this module is that the student is enabled to analyse the particularities of management of firms where several international markets are involved. This helps to-be-managers to prepare for the particular challenges and problems involved in the internationalisation of firms. Moreover, after completion of the module, students can analyse and assess the value of inward and outward foreign direct investment of firms for the host and home countries.</p> <p>The first part of this course focuses on explaining the existence of the multinational enterprise by generalising the theory of the firm and its characterisation on the one side and particularities of management in multinational enterprises on the other. The management part of the course analyses strategies of entry into foreign markets, including entry modes, entry timing and the location from an institutional perspective and by use of case studies. The third part of the course is concerned with the management of knowledge and R&D both within the multinational enterprise and between the multinational enterprise and its host economies. This is discussed in terms of effects of knowledge and R&D management on subsidiary development and on technology transfer externalities (spillovers).</p> | | |
| Contents: | <ol style="list-style-type: none"> 1. Economic theories of internationalisation and TNC <ul style="list-style-type: none"> ◦ Static vs dynamic theories ◦ Internalisation-theories and asset-based theories 2. International management and entry strategies <ul style="list-style-type: none"> ◦ Network theory ◦ Choice of location and time of entry ◦ Entry modes, control and market power ◦ Internationalisation of knowledge 3. Economic analysis of TNCs and policy-implications <ul style="list-style-type: none"> ◦ FDI and host country effects, national innovation systems ◦ TNCs and Intellectual Property Rights ◦ Foreign Direct Investment policies | | |

| Lecturer(s): | Stephan, Johannes / Prof. Dr. | | |
| Institute(s): | Professor of International Resource Policy and Economic Development | | |
| Duration: | 1 Semester(s) | | |
| Competencies: | <p>Students will be able to understand the implications of management of firms in the environment of developing economies. Companies involved in a region that is characterised by much lower levels of economic development face particular challenges in the management: they have to consider the implications that development strategies, both national and coordinated by international organisations and NGOs, have on their activities.</p> <p>Of particular relevance in developing economies is the role of natural resources that are often abundant and currently their most precious source of national welfare. Students acquire the understanding that natural resources can easily turn into a curse, if they are not included into a coherent national development policy. Those include most prominently export-oriented policies, state-aid policies and the development of national champions, the attraction of foreign direct investments, and incentive systems for outward investment.</p> | | |
| Contents: | <p>Part I - Economic development and emerging markets</p> <p>I.1 Foreign exchange and economic development</p> <p>I.2 Reminder of trade theory and politics</p> <p>I.3 Characteristics of developed, emerging, and developing countries</p> <p>I.4 Theories of Economic Development: Overview</p> <p>I.5 Development Policies: Approaches, Failures, and New Consensus?</p> <p>I.6 The Chinese way: infrastructure for development</p> <p>Part II - The role of natural resources for economic development</p> <p>II.1 Natural resources and environment as production factor</p> <p>II.2 The concept of the resource curse in general</p> <p>II.3 Concepts for a benign role of resources for development ("Successful resource-based development")</p> <p>II.4 The economics of export restrictions of depletable resources (example rare earth, other critical resources)</p> <p>Part III - Wrapping up and discussions in class, using the form of the political debate</p> <p>III.1 The system of the political debate</p> <p>III.2 Suggested topics for debate</p> | | |

| (English): | | | |
| Responsible: | Drebenstedt, Carsten / Prof. Dr. Hoth, Nils / Dr. | | |
| Lecturer(s): | | | |
| Institute(s): | Institute of Mining and Special Civil Engineering | | |
| Duration: | 1 Semester(s) | | |
| Competencies: | <p>The students learn to work fully independent on a research topic. Therefore they have to use their knowledge from "Geo-Scientific Communication", mainly how to structure their work. Furthermore they will enforce their skills with respect to handling large data sets and to develop an investigation strategy from different technical points of view. So in the end they have to combine all their knowledge they got in relation to hydrogeological, hydrochemical and management aspects, as well as to deal with a general argumentation line. Additionally their team competencies and time management skills will be improved.</p> | | |
| Contents: | Of course this depends on the detailed topic. Possible topics may be related to hydrogeological or hydrogeochemical aspects, as well as applied management or business administration questions in relation to groundwater (risk assessment studies, management concepts). | | |
| Literature: | Depends on the research topic. For the general strategy to structure the work and how to write the MSc-thesis the acquired knowledge from "Geo-Scientific Communication" can and has to be used. | | |
| Types of Teaching: | S1: Master thesis / Thesis (6 Mon) | | |
| Pre-requisites: | <p>Mandatory: Themenausgabe: Abschluss von Modulen nach dieser Ordnung im Umfang von mind. 84 LP (Issue of the topic of the thesis: Modules totalling at least 84 CP according to the exam regulations have to be completed)Kolloquium: Abschluss aller Module (Oral defense of the thesis with discussion: all modules have to be completed)</p> | | |
| Frequency: | constantly | | |
| Requirements for Credit Points: | <p>For the award of credit points it is necessary to pass the module exam. The module exam contains: AP*: Thesis AP*: Oral defense of the thesis with discussion</p> <p>* In modules requiring more than one exam, this exam has to be passed or completed with at least "ausreichend" (4,0), respectively.</p> <p>Voraussetzung für die Vergabe von Leistungspunkten ist das Bestehen der Modulprüfung. Die Modulprüfung umfasst: AP*: Masterarbeit AP*: Verteidigung der Masterarbeit mit Diskussion</p> <p>* Bei Modulen mit mehreren Prüfungsleistungen muss diese Prüfungsleistung bestanden bzw. mit mindestens "ausreichend" (4,0) bewertet sein.</p> | | |
| Credit Points: | 30 | | |
| Grade: | The Grade is generated from the examination result(s) with the following weights (w): AP*: Thesis [w: 2] | | |

AP*: Oral defense of the thesis with discussion [w: 1]

* In modules requiring more than one exam, this exam has to be passed or completed with at least "ausreichend" (4,0), respectively.

Workload:

The workload is 900h.

| (English): | | | |
| Responsible: | Höck, Michael / Prof. Dr. | | |
| Lecturer(s): | Höck, Michael / Prof. Dr. | | |
| Institute(s): | Professor of Industrial Management, Production Management and Logistics | | |
| Duration: | 1 Semester(s) | | |
| Competencies: | Foremost, the module aims to convey to the student problem-solving competencies with a view to putting the student in a position to analyse the complex questions in operations management, to structure them, and to develop solution alternatives. | | |
| Contents: | This course addresses the management of operations in manufacturing and service firms. Diverse activities, such as determining the size and type of production process, purchasing the appropriate raw materials, planning and scheduling the flow of materials and the nature and content of inventories, assuring product quality, and deciding on the production hardware and how it gets used, comprise this function of the company. Managing operations well requires both strategic and tactical skills. During the term, we will consider such topics as: process analysis, workforce issues, materials management, quality and productivity, technology, and strategic planning, together with relevant analytical techniques. This course will provide a survey of these issues. | | |

| Data: | PRIMA. BA. / Examination number: 60916 | Version: 14.01.2022 | Start Year: SoSe 2022 |
| Module Name: | Project Risk Management | | |
| (English): | | | |
| Responsible: | Wiens, Marcus / Prof. Dr. | | |
| Lecturer(s): | Wiens, Marcus / Prof. Dr. | | |
| Institute(s): | Professor of Innovation and Risk Management | | |
| Duration: | 1 Semester(s) | | |
| Competencies: | After successful completion of the module, students should be able to explain the context, rationale, strategy and tactics of project management with emphasis on the importance of project planning and project risk management by identifying and examining critical project phases and conditions. The course enables the participants to apply project management skills to projects in a variety of industries and disciplines with a strong focus on the complexities and problem constellations of mega projects, but also information technology, procurement & maintenance projects. By focussing on providing knowledge in core areas of risk analysis, time, cost and quality, the participants are able to confidently deal with the ever growing complexities and challenges of project management. | | |
| Contents: | The module starts with a systematic overview of the principles of project management. The module covers the areas of project scope management, time management and resource scheduling as well as cost & quality management primarily from a risk-oriented perspective. The module applies methods such as model-based and statistical risk analysis, decision-theoretic analyses, Monte-Carlo-simulations as well as behavioral and game-theoretic approaches to understand incentives, decision biases and public acceptance. Finally, the module derives conclusions for efficient risk management policies for complex projects. | | |

| Responsible: | Drebenstedt, Carsten / Prof. Dr. | | |
| Lecturer(s): | Bongaerts, Jan C. / Prof. Dr. | | |
| Institute(s): | Professor of Environmental & Resource Management Institute of Mining and Special Civil Engineering | | |
| Duration: | 1 Semester(s) | | |
| Competencies: | Students learn the essence and the significance of responsible consumption, both from the side of consumers and of producers in their function as enablers through appropriate product design, materials selection, ethically correct production conditions and respect for the environment. Students learn the potentials of consumers to behave responsibly and the opportunities of producers to enhance these potentials. | | |
| Contents: | <p>Consumer economics: the rational neo-classical consumer model, consumer models of behavioural economics, psychological models of the learning consumer, sociological consumer models, ecological consumer models</p> <p>Consumer law, consumer education and information, standards, guidelines and labels for product development, manufacturing, distribution and recycling</p> <p>Marketing tools and techniques</p> <p>Measurement and evaluation systems for the assessment of products and services: Life Cycle Analysis, CO₂ footprint, ecological handprint and others</p> <p>Development (by engineers) of enabling technologies and management practice for responsible consumption: recyclable materials, design for recycling, durability of product use, human health and animal welfare etc.</p> <p>Case studies</p> | | |
| Literature: | <p>Arto O. Salonen: Responsible Consumption, in: Samuel O. Idowu, Nicholas Capaldi, Liangrong Zu, Ananda Das Gupta (Eds): Encyclopedia of Corporate Social Responsibility, Springer, 2013, DOI: https://doi.org/10.1007/978-3-642-28036-8_119</p> <p>Journal of Cleaner and Responsible Consumption (Elsevier Open Access)</p> | | |
| Types of Teaching: | <p>S1 (SS): Lectures (2 SWS)</p> <p>S1 (SS): Seminar (1 SWS)</p> | | |
| Pre-requisites: | | | |
| Frequency: | yearly in the summer semester | | |
| Requirements for Credit Points: | <p>For the award of credit points it is necessary to pass the module exam.</p> <p>The module exam contains:</p> <p>KA* [90 min]</p> <p>AP*: term paper (minimally 12 pages)</p> <p>* In modules requiring more than one exam, this exam has to be passed or completed with at least "ausreichend" (4,0), respectively.</p> <p>Voraussetzung für die Vergabe von Leistungspunkten ist das Bestehen</p> | | |

| | |
|----------------|--|
| | <p>der Modulprüfung. Die Modulprüfung umfasst: KA* [90 min] AP*: Ausarbeitung (mindestens 12 Seiten)</p> <p>* Bei Modulen mit mehreren Prüfungsleistungen muss diese Prüfungsleistung bestanden bzw. mit mindestens "ausreichend" (4,0) bewertet sein.</p> |
| Credit Points: | 5 |
| Grade: | <p>The Grade is generated from the examination result(s) with the following weights (w): KA* [w: 2] AP*: term paper (minimally 12 pages) [w: 1]</p> <p>* In modules requiring more than one exam, this exam has to be passed or completed with at least "ausreichend" (4,0), respectively.</p> |
| Workload: | The workload is 150h. It is the result of 45h attendance and 105h self-studies. |

| | | | |
|---------------------------------|---|---------------------|-----------------------|
| Data: | HYTRACE. MA Nr. 3548 / Examination number: 30256 | Version: 16.10.2019 | Start Year: SoSe 2021 |
| Module Name: | Tracers in Hydrogeology | | |
| (English): | | | |
| Responsible: | Scheytt, Traugott / Prof. Dr. | | |
| Lecturer(s): | Scheytt, Traugott / Prof. Dr. | | |
| Institute(s): | Institute of Geology | | |
| Duration: | 1 Semester(s) | | |
| Competencies: | Upon successful completion of the course, students will have demonstrated the ability to plan, execute and interpret a tracer test using artificial dye tracers. They will have shown the ability to make use of further compounds as tracers (isotopes, trace compounds) for determination of groundwater processes. | | |
| Contents: | In groundwater, a variety of organic (including pesticides, pharmaceutical agents, sweeteners, Petroleum hydrocarbons, VOCs) and inorganic (including metals, rare earth elements, anions) substances are solved, their occurrence and concentrations reveal groundwater age, the infiltration function, or the transport processes. In addition, there are a number of reactive and non-reactive tracers that can be added to the groundwater and can provide important information about the flow and reactivity of groundwater and aquifer during tracer or push-pull test. Finally, isotopes and isotope ratios provide important insights into the recharge and age of groundwater. These experiments and investigations are needed to evaluate groundwater flow and transport. The course includes a tracer experiment conducted and interpreted in the hydrogeological test field. | | |
| Literature: | Leibundgut, Ch., Maloszewski, P. & Külls, Ch. (2009): Tracers in Hydrology. - Wiley Blackwell. | | |
| Types of Teaching: | S1 (SS): Lectures (1 SWS) S1 (SS): Exercises (1 SWS) | | |
| Pre-requisites: | Recommendations: Introduction to Hydrogeology, 2019-10-01 Hydrogeochemistry, 2019-10-01 | | |
| Frequency: | yearly in the summer semester | | |
| Requirements for Credit Points: | For the award of credit points it is necessary to pass the module exam. The module exam contains: KA: Exam [90 min] AP: Preparing and submitting a report on the tracer investigation Voraussetzung für die Vergabe von Leistungspunkten ist das Bestehen der Modulprüfung. Die Modulprüfung umfasst: KA: Exam [90 min] AP: Bericht zur Geländeübung | | |
| Credit Points: | 3 | | |
| Grade: | The Grade is generated from the examination result(s) with the following weights (w): KA: Exam [w: 1] AP: Preparing and submitting a report on the tracer investigation [w: 1] | | |
| Workload: | The workload is 90h. It is the result of 30h attendance and 60h self-studies. | | |
