JUNE 24 - JULY 7

CUMT

ABOUT CHINA UNIVERSITY OF MINING AND TECHNOLOGY

Founded in 1909, the China University of Mining and Technology (CUMT) is one of the key national universities directly under the administration of China's Ministry of Education. It is also a part of the nation's "211 Project" and "985 Project Innovation Platform for Disciplines of Superiority" as well as "Double First-class Initiative". These are all national programs designed to support and develop top institutions of higher education in China.

Over a history of 115 years, CUMT has developed a multi-disciplinary system with a focus on mineral and mining engineering among other disciplines in sciences, engineering, arts, management and the like. CUMT has 23 schools and faculties, offering 72 undergraduate programs, 55 master's programs and 20 doctoral programs. The University has more than 3400 members of staff, including nearly 2200 academic staff. The student population is 37000 including 680 international students.

CUMT ranked 56th in the Chinese Mainland (Best Chinese Universities Ranking 2023 published by Shanghai Ranking Consultancy), with Mineral and Mining Engineering ranked 17th (QS World University Rankings by Subject 2023). CUMT has always fostered international exchanges and cooperation with other universities overseas over the past decades. To date, the university has established partnerships with nearly 100 universities worldwide.

Looking ahead, CUMT is positioned to become a world class university with energy and resource characteristics.

ABOUT THE SUMMER SCHOOL

The Summer School Program, organized by the International Higher Education Alliance for Mining, Energy, and Environment (AMEE), started as early as 2014. In the past years, CUMT, the main organizer of the program, has always worked hard to bring students the best experience. The combined course modules of engineering and Chinese culture have presented our academic strength by which students really learned a lot, and in the meantime led foreign students to perceive a multi-dimensional China. So far, a total of 338 students from more than 20 universities in 12 countries have participated in this program.

To provide an opportunity for students to know each other and develop friendship, CUMT will continue with this program in 2024 and would welcome students from our partner institutions, the AMEE and the UK-Jiangsu World-Class University Consortium.

CUMT

WHAT WILL YOU GET FROM THE SUMMER SCHOOL?

Exceptional opportunity to understand the updated knowledge in the fields of Mining and Safety, Advanced Manufacturing and New Energy. It also provides a platform for you to understand the Chinese culture by learning the courses of Contemporary Chinese Economy, Chinese Culture, Art and Cross-cultural Communication, as well as History of Chinese Architecture.

HOW?

Send your completed registration form to the point of contact of your university. We will let you know the next-step-to-do after you are nominated by your university.

Schedule

February 8 ~ February 20: Release of program information to partner universities
March 25 : Deadline of submitting registration form
March 31: Course selection system opens
March 31 ~ May 25: Apply for visa to China
June 24 - July 7: 2024 CUMT Summer School

June 24 Monday	June 25 Tuesday	June 26 Wednesday	June 27 Thursday	June 28 Friday	June 29 Saturday	June 30 Sunday
Opening Ceremony	Morning Class: Engineering Related Course				Chinese culture excursions and immersive experience	Chinese Culture excursions and immersive experience
Afternoon Class: Chinese Culture Related Course				Lab Experience		
July 1 Monday	July 2 Tuesday	July 3 Wednesday	July 4 Thursday	July 5 Friday	July 6 Saturday	July 7 Sunday
Morning Class: Engineering Related Course				Lab Experience	Free	Closing Ceremony
Afternoon Class: Chinese Culture Related Course					Traditional Chinese art show	

*Engineering related course package includes Modern Mining Technology, Advanced Manufacturing, New Energy, Civil Engineering; Chinese Culture Related Course package includes Contemporary Chinese Economy, History of Chinese Architecture, Cross-cultural Communication.

*Each course contains 16 class hours of study and all of them will be taught in English. Detailed course information will be sent to the coordinator of partner universities and published on the English website of CUMT in the end of March. The course selection system will also be launched at the end of March.

*Please be advised that you are only allowed to select one course in each course package and get your final marks thereof. However, you are free to attend any other course as auditors.

Chinese culture excursions and immersive experience

Xuzhou Han culture scenic spot

-- A historic site with a history of 2000 years

Xuzhou Pan 'an Lake Wetland Park

-- An excellent case of ecological restoration on mined Land

CUMT

FEES

Each partner institution will be given a certain tuition-free scholarships quotas. Scholarships will cover tuition fees as well as expenses for accommodation, meals and local transportation in China.
